FAI Drone Permission

Dear Friends of Drone Racing,

The FAI Executive Board takes note that the CIAM F3U class is provisional and Drone Racing is developing very fast globally. There is a need to accommodate this fast growing sport in FAI and help connect the Drone community to international air sports.

The EB decided that in 2017 the FAI Secretariat can temporarily – limited to the calendar year 2017 - issue FAI Permissions to individuals who wish to compete in international events in FPV Racing (F3U, Drone Racing) sanctioned as Category 2 event as defined in GS SC 4.4.2 and 4.4.3.2. The individuals have to declare their contact details and nationality/residency. The applicant and the respective NAC will automatically receive a confirmation of such FAI Permission.

FAI Secretariat set a fee of 10.00 CHF for the listing in the FAI Sporting License database as holder of an FAI permission for Drone Racing.

This FAI Drone Permission can be ordered here: www.droneracing.aero

Organizers can check that a competitor holds a valid FAI Drone Permission or FAI Sporting License here: www.fai.org/about-fai/fai-sporting-licences

For the password please contact it@fai.org.

For any questions, please contact drones@fai.org or +41 21 345 10 70 during CET office hours.

Yours sincerely

Susanne SCHÖDEL
FAI Secretary General
